*Motivated and Dynamic Web Developer / Programmer*

## FULL STACK DEVELOPMENT | EXPERT KNOWLEDGE IN REACT.JS | NATURAL LEADERSHIP

As a web developer, I am driven and energetic with a deep focus and substantial experience in web application development and web layout design. My strong work ethic and natural adaptability allow me to thrive in challenging and constantly evolving environments. With extensive training and practice, I possess a talent for solving intricate problems in innovative ways and managing complex projects. Additionally, I am skilled at collaborating effectively, building strong teams, and leading diverse and multifaceted operations.

### CORE COMPETENCIES

*Creative Problem Solving | Communications | Business Operations | Quality Assurance | Project Management | Enterprise Web Application Development | Web Layout Design | Stored Procedures | Software Development*

### CAREER PROGRESSION

#### FREEANCE

**2022 - PRESENT**

**Web Development Professional**— *Addis Ababa, ET*

A client needs a front-end developer with React skills to work on their existing web application. The job requires experience with React, JavaScript, HTML, and CSS, as well as knowledge of responsive web design and cross-browser compatibility.

#### *freelanncer*

*SharePoint customization: A client needs a SharePoint developer to customize their SharePoint site to meet specific business needs. The job requires experience with SharePoint Online, JavaScript, HTML, and CSS.*

#### **Project intern**

*my responsibilities include assisting with project planning, scheduling, site inspections, and other tasks related to the construction process. Through this experience, i develop a better understanding of the construction industry and potentially advance their career in the field.*

#### **PERSONAL PROJECTS:**

» *Built Amazon-clone using react, the world's largest e-commerce store with full functioning online payment method, front and back end.*

» *Built Netflix-clone using react, online movies, and tv shows streaming service.*

» *I developed an AI summarization tool using OpenAI API, which enables users to automatically summarize long texts in a quick and efficient manner.*

» *I recreated Apple's current website using react-created react components for various pages and sections with full functional routing. I integrated Apple's YouTube channel and the latest news using REST API.*

» *I have built a Zoom replica using Node.js. with an online video streaming service. Two or more users can go online to meet face-to-face.*

» *Developed a functional Instagram-clone using cutting-edge web technologies, showcasing my expertise in web application development and UI/UX design. Employing agile methodologies, I implemented responsive layouts and robust back-end functionalities, allowing seamless user interactions and a delightful user experience.*
